SUMMARY

Senior Product Designer with 10+ years at Wix, designing developer platforms, monetization experiences, and AI products. Hands-on with code through AI tools, working closely with product and engineering.

EXPERIENCE

Senior product designer, Wix

2020-2026

Developer Center - Sole designer leading the app developer platform, developer-facing tools, data and internal tools.

OS Company - Led the UX for the AI credits wallet, a shared platform used across teams.

Product designer, Wix

2018-2020

Labs company - building apps for Wix users (Comments, Sheets connector)

Media company: Wix Video features and live streaming.

Founding team product designer, Wix

2014-2018

One of the founding designers of Wix ADI, an AI website builder.

Marketing designer & lead, Wix

2012-2013

Campaigns, landing pages, a site badges app, and paywall A/B tests.

Studio designer, McCann Erickson

2010-2012

Graphic designer, Walla News

2008-2010

KEY ACHIEVEMENTS

Wix Developer Center

Sole designer for 5 years. Led the developer platform from permissions and webhooks to monetization, payouts, listing, user and review management, helping grow the number of apps on Wix.

AI Credits Wallet

Designed Wix's AI credits wallet for free and premium users, shipped across three platforms.

Internal Reviews system

Rebuilt the app review tool from the ground up. Review cycles are faster, and it's still in use today.

App installation data

Owned the first installation data page for developers, from concept and design to shipped code.

EDUCATION

B.Des in Graphic Design

Shenkar College of Engineering and Design

2010

TOOLS

Design: Figma, FigJam, Figma Make

AI: Claude, Codex

Work: Google Workspace, Jira, Notion, Slack
